Getting started

Unpack all materials. Set up the player, battery and AC charger.

Insert the battery into the player, and plug in the AC charger.

Procedure

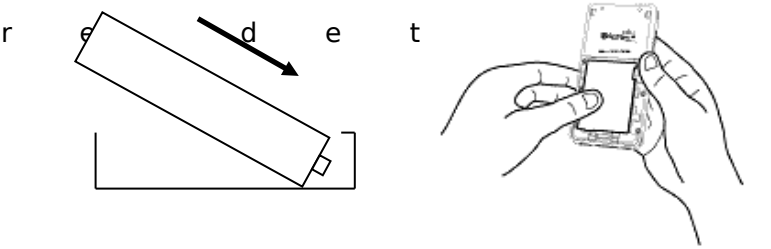

Turn the player over and make sure the two small projections at the top are facing up. Using two hands, grasp the bottom of the player and the two ribs in the middle of the player; slide the cover toward the bottom of the unit and remove it completely.

Place the battery in your hand and orient it so that two projections are on the top side of the battery and the small projection is on the bottom left side of the battery.

A line drawing showing a hand sliding the battery cover off the back of the device. The cover is shown being lifted away from the unit.

A line drawing showing a hand inserting a battery into the back of the device. The battery is oriented with its top side facing up, and its bottom left side is aligned with the device's back.

Gently slide the battery into the player toward the top side of the opening. Do not force it. Note that the battery cannot be inserted toward the left.

To close the battery cover, place the cover about below the closed battery cover. Slide the cover up until it locks into place.

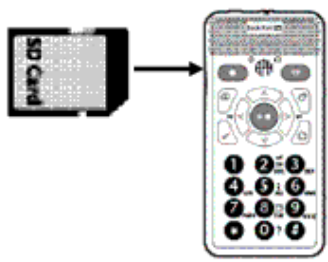

Turn the player over front side faces up. Plug AC charger into the AC located at the l edge of the player. Charge the battery fully the first time you use the player. about 4 hours. You c B o o k P o r t P charges.

To remove the battery, please refer to the User Manual.

Insert/Remove SD card

Insert the SD card into the card slot located n top of the left ed front of the SD card h smooth surface and the back is ribbed at one edge. Orient the SD card so that the c corner is at t right. Insert the SD card into the card slot, press it firmly and then release.

To remove the press in the center card toward the right side of the device until you feel the spring action relea should pop out a little fro the slot. Grasp and pull it to

t h e l e f t t o r e m o v e completely.
